

## Your Customer

Here are a few questions you might want to research and ask yourself in order to build up your customer profile/avatar.

## What is it your customer is trying to achieve?

Is there something your customer does not realise they need from you?

Is your customer expressing an emotional state - do they need to look good, feel secure, do they want peace of mind with the decisions they are taking? What's driving their response?

What age range is your client?

## Where would your client be based?

Are there any other questions you need to ask, if so, what are they and what are the answers?
